## Fexicon FPAU (ULTRA) - Short Thread Fitting Instructions FM0301-1

Instructions for assembling/removing fitting to/from conduit to ensure IP66, IP67, IP68 \& IP69 is maintained. Refer to Flexicon catalogue in Ultra section for all available fitting types and sizes.

Safety Note: When handling cutters, knives, saws, pointed tools etc, suitable eye and hand protection should always be worn.

Cut end straight with Flexicon cutter Part nos.: CC01: $\leq 34 \mathrm{~mm}$ $\mathrm{CCO}: \leq 67 \mathrm{~mm}$

To remove conduit:

To remove conduit: Insert flat screwdriver into slot in cap in position 1, push clip in and move to position 2.

## 1

Rotate cap anticlockwise, pull out conduit. Rotate cap to original position before refitting conduit.

| Thread Size | Locknut (Nm) |  | Housing Hole Dia +0.5/0 mm | Threaded Entry (Nm) |  | Optional Locknut |  |
